# DESIGN

Angela Palmer born in Mount Clemens Michigan is the visionary for the "Vionni" handbag brand.

"Every since I was a little girl I liked dressing up, cutting fabric and coming up with something extraordinary never allowing anyone to make me choose a single category. I liked wearing clothes that were different I even went as far as adding embellishment to my jeans and shirts. In high school I majored in art falling in love with drawing and painting and moving forward to graphic arts and later on mastering Fashion Marketing and Design ...I eventually found my niche in designing handbags. I love it"

Residing in Atlanta, Georgia 31 year old single mother Palmer rediscovered her passion for chic.

After turning thirty and reevaluating her priorities, needs and wants, she decided to lose the modest and ordinary and revive what she loved most about herself; her edginess, her sense of adventure, and uniqueness; At the same time holding on to all the new things she had discovered about her self, throughout the years; her strength, capability, resilience and above all else her sense of modern class.
